A1V1 AND INFOSECURITY LTD

Contact: Naeem Chowdhary

42-A Burlington Gardens
Acton
London, W3 6BA

Tel: +44 7833 053 448
E-Mail: nchowdhary@gmail.com
Web: www.A1V1AndInfoSecurity.com

A1V1 And InfoSecurity Ltd is a training and vocational qualification organisation. Company was created, by an ex-university technology lecturer in 2001 to fill a gap between academic knowledge and practical business skills. The name was created to represent "A1V1" as vocational sector trainer awards. And "InfoSecurity" represent lectureship background of company's creator.

Vocational qualifications are available for 16 to 60 year old candidates. New, internationally recognised, vocational standards in cyber security were announced in 2014. We specialise in latest technology training projects in general and cyber security training and qualifications in particular. EU also support such initiatives in 2016.

ACUITY RISK MANAGEMENT

Contact: Simon Marvell

Liberty House
222 Regent Street
London, W1B 5TR

Tel: +44 20 7297 2086
E-Mail: simon.marvell@acuityrm.com
Web: www.acuityrm.com

An easy to use and highly configurable GRC software solution (STREAM) providing: real-time measurement and reporting on compliance against any control framework, including ISO 27001, PCI DSS and NIST; prioritization and management of the remediation of security vulnerabilities and measurement and monitoring of risk status in relation to risk appetite and key security metrics.

Integrated workflow and alerting supports efficient resolution of incidents and management of actions.

STREAM integrates data from multiple sources, including threat intelligence to provide actionable security operations, analytics and reporting in a business context.

We are looking for end user customers, consulting partners and resellers.

AVECTO

Contact: Michael Frauen

Hobart House
Cheadle Royal Business Park
Cheadle, SK8 3SR

Tel: +44 845 519 0114
E-Mail: Michael.Frauen@avecto.com
Web: www.avecto.com

Avecto is a global software company specializing in endpoint security. Its unique Defendpoint software makes prevention possible, integrating three proactive technologies to stop malware at the endpoint. This innovative software protects over 5 million endpoints across the world's most recognizable brands. Avecto promotes a balance of security + freedom, focusing on a positive user experience across every software implementation.

The Avecto logo is displayed in a white rounded rectangle. It features the word "Avecto" in a blue, sans-serif font.

BLACKCAT

Contact: Damon Rands

Platform
Devon Place
Newport, NP20 4NW

Tel: +44 7809 482 185
E-Mail: damon@blackcat.online
Web: www.blackcat.online

We supply an online platform, that allows organisations of all sizes to track and maintain their regulatory compliance. We support all ISO standards from 9001 to 27001 as well as other major standards including Nist, cobit and PCI-dss. Our system walks the clients through the compliance process allowing them to delegate each of the question to the relevant people and to collate all the relevant documentation in one secure store. The status of compliance can be viewed at anytime using our platform which is displayed in a straight forward traffic light system. Compliance tracking as a service.

The blackCAT logo is displayed in a white rounded rectangle. It features the word "blackCAT" in a bold, orange, sans-serif font, with "compliance tracker" in a smaller, orange, sans-serif font below it. A stylized orange and black graphic element is positioned to the left of the text.

CREATE INTELLIGENCE

Contact: Boyd Mulvey

Island House
2 Station Road
Woodbridge, IP12 4AU

Tel: +44 776 997 2036
E-Mail: b.mulvey@createintel.com
Web: www.createintel.com

Create Intelligence is a UK-based specialist provider of data-analytics software to UK and International Police forces, corporates and other entities. Its core product "Chorus" is rapidly becoming the reference analytical tool for cleaning and analysing all complex datasets including call data records, handset downloads, computer downloads, financial transactions, ANPR, wifi, covert intelligence, tracking devices, cell tower dumps, GPRS data and others. It is currently used by some of the largest police forces in the UK and is being used by serious and organised crime, counter terrorism and other specialist forces and has assisted in securing convictions in many high-profile cases.

DARKTRACE

Contact: Nadja Rogers

Broers Building
21 JJ Thomson Ave
Cambridge, CB3 0FA

Tel: +44 746 985 8412
E-Mail: nadja.rogers@darktrace.com
Web: www.darktrace.com

Named 'Best Security Company of the Year' by Info Security Products Guide 2015, Darktrace is one of the world's leading cyber threat defence companies. Its Enterprise Immune System technology, powered by mathematics developed at the University of Cambridge, detects previously unidentified threats in real time and analyses the entire network of an organisation. Some of the world's largest corporations rely on Darktrace's self-learning appliance in sectors including energy, financial services, telecommunications, healthcare, manufacturing, retail and transportation. The company was founded in 2013 by leading machine learning specialists and government intelligence experts, and is headquartered in Cambridge, UK with offices worldwide.

DEEP-SECURE LIMITED

Contact: Humphrey Browning

1 Nimrod House
Sandy's Lane
Malvern, WR141JJ

Tel: +44 7900 784 828
E-Mail: Humphrey.Browning@deep-secure.com
Web: www.deep-secure.com

Deep-Secure supplies high assurance secure information sharing (SIS) products and solutions. These are available to organisations globally where critical messages have to be tailored to their individual data-security policies. The company offers a range of Guards to support current and emerging interoperability requirements aligned to SIS. Its TransGap solution provides a secure import/export facility with additional security provided by the Trans-shipment process. The latest guards are specifically aimed at the CNI and protocols such as MODBUS and OPC. As a highly specialised small business Deep-Secure is proud to be agile and innovative working with customers to achieve their SIS requirements.

FALANX ASSURIA

Contact: Jon Akande

Europoint Centre
Lavington Street
London, SE1 0NZ

Tel: +44 203 761 1813
E-Mail: jon.akande@falanxassuria.com
Web: www.falanxassuria.com

Falanx Assuria, created solely to deliver Cyber Security services, provides a range of managed Protective Monitoring Services that monitor and analyse customers' IT infrastructures for signs of improper activity. Our services provide continuous protection for legacy and cloud computing environments from cyber threats, failure of process, technology and human error.

GARRISON TECHNOLOGY LTD

TENTO TECHNOLOGIES LTD

Contact: Howard Yates

Spectrum House
9 Bromells Road
London, SW4 0BN

Tel: +44 785 868 69 70
E-Mail: howard@tento.co.uk
Web: www.tento.co.uk

Tento is a London-based cybersecurity start-up. We have patented a challenge-response authentication system based on visual cryptography. Applications include online payments and website logins. Tento provides frictionless, bank-grade security from an app and TentoIDs – security tokens stored in the client device. Our client-server system generates one-time passwords (OTPs) that only the user can read – malware cannot. Having won a UK government competition in 2015, we are now working with a major bank to implement strong two-factor authentication. Our mission is to eradicate multiple remembered passwords and reduce the risks and costs of cybercrime for websites and corporate networks.

ULTRA ELECTRONICS AEP
